We’re on a mission to defeat pediatric cancer through nutrition. In 2014, we laid some important groundwork to prepare for the challenge. We strengthened our partnerships in the field. We tied up with new hospitals including AIIMS. We made key hires in the nutritionist team, marketing team. We thought strategically about how to help exponentially more kids in years to come. We figured that education was key in this process and hence we partnered with Tata Hospital to host the largest international conference on pediatric oncology nutrition in the country. And we worked very hard to raise funds to help us get to our goals.

As I look back at the year, I look back at it with mostly smiles. I smile about the 6000+ kids we reached out to, about the strong team of nutritionists that we have built, about the journey that we have been on...And a BIG thank you to all our donors and partners for making it all possible.

### Children Impacted

Since we started in 2012 till date, we have helped more than 6000 children. We are now poised to reach over 6000 children in 2015 alone.

*Proposed figures for the given year*

*With our recent tie ups at AIIMS, Delhi & PDPMER, Chandigarh, our program now reaches 6 hospitals across 3 states.*

### Our Nutritional Interventions

- **1500+** Children reached out to with Ready to Use Therapeutic Foods, milk powder, eggs and fruits
- **2500+** Juice boxes and chocolates delivered to bring smiles.
- **3000+** Mid-day meals distributed
- **5000** Children reached out to with Nutritional supplements.
- **8 Nutritionists** Provide dietary guidance and counseling across 6 hospitals.
- **1500+** Parents guided on the right nutritional practices.

### Other Major Initiatives

#### Nutrition Fellowship Program

As part of our knowledge building initiative, we supported the Regional Nutrition Fellowship Program, 2015, Tata Memorial Hospital, March 2015. To have specialized individuals working in the field so as to provide standardized, state of the art care to patients. 20 students of nutrition science attended this with leading global and national experts as faculty.

#### International Workshop on Nutrition

We were a privileged supporter of the International workshop on Nutrition held in Mumbai at Tata Hospital in September, 2014. The meeting was held under the aegis of International Society of Pediatric Oncology (SIOP) and the Indian Academy of Pediatrics. International and Indian experts in pediatric oncology nutrition came together with an objective to achieve the best care for children suffering from cancer India.
